County Sunday Schools in Convention.

The Bourbon County Inter-Denominational Sunday School Association held a convention Tuesday morning and afternoon in the Baptist church. The meeting was presided over by Mr. H. A. Power, county president. After the devotional exercises, conducted by Rev. Carey E. Morgan, and the report of the secretary, Mr. Houston Rion, Rev. O. B. Crockett made an address in Personality Teaching, which was very practical and thoughtful.

The story of the International convention held at San Francisco in July, was told in a very entertaining manner by Mr. W. J. Vaughn, of Louisville, Ky., field worker for the Kentucky Sunday School Association. His account of the proceedings of the convention was very instructive, and he related many interesting incidents of his trip. He also stated that there are more Sunday schools in the mountain counties of Kentucky in proportion to the population than in any of the counties in Central Kentucky, and that more boys and girls of school age attend the Sunday schools there than elsewhere in the State.

After a solo by Mr. Floyd, the meeting adjourned until 2 p. m., when the devotional services were conducted by Rev. J. T. Sharrard.

Mr. Vaughn again addressed the meeting upon "The Present Day Demands Upon the Church and Sunday Schools," and made a strong plea for the spirit of conquest and consecration in the work. Rev. E. M. Lightfoot followed with an address upon "Parental Responsibility" and urged the necessity of co-partnership between parent and child.

After a discussion of various methods of the work, conducted by Mr. Vaughn, the committees on resolutions and nominations reported. Mr. W. O. Hinton, chairman of the latter committee, submitted the names of the following to act as officers for the ensuing year:

Professor George W. Chapman, president; J. B. Barnett, vice president, and Houston Rion, secretary and treasurer, who were duly elected.

The following delegates were appointed to the State Convention to be held in Louisville October 19-22:

Rev. and Mrs. E. M. Lightfoot, Rev. C. E. Morgan, Dr. F. L. Lapsley, Mr. James Smith, Mr. Houston Rion, Mr. H. A. Power, Mrs. B. M. Shive, Mrs. Walter Clark, Mrs. William Myall, Mr. D. Y. Farley.

The time and place for holding the next convention will be determined later.

The following resolutions were adopted:

We, the Bourbon County Sunday School Union in session assembled in the Baptist church at Paris, Kentucky, believe, that

Whereas, the Sunday schools of our county could be brought into closer union with each other, and the varied methods of work as used by each denominational school, by comparison with one another in such conferences would be of untold value, and

Whereas, but few of our county schools are represented in this annual gathering, therefore be it resolved

That we urge upon the officers of this organization to arrange a programme at least one month prior to the time of annual meeting, same to be published in all county papers together with time and place of meeting, and be it further resolved

That all our county schools be urged to make out and forward report of their work to the secretary of the union, that we commend the gathering of all statistics as to non-attending Sunday school pupils, that the Home Department, Cradle Roll, and Graded System, so far as the latter is practicable in view of local conditions be adopted by the various schools, and be it further resolved

That we commend our brother, W. J. Vaughn, as an interesting and efficient Sunday school worker, that we urge a heartier co-operation with our State Association, and that our schools send a large representation to the State Convention at Louisville, Kentucky, on October 19-22, 1911.

Respectfully submitted,

MRS. WM. MYALL,
MRS. B. M. SHIVE,
REV. E. M. LIGHTFOOT,
Committee.

Blacksmith Fouly Murdered.

Wm. E. Slade, veteran blacksmith and gunsmith, was found murdered at his home in Cynthia Wednesday afternoon.

Mr. Slade was found lying across his bed, clad only in his underwear. He was cold and stiff in death. Blood smeared his features and the bedding. A lamp on a table was burning.

He had been struck in the head four or five times with some blunt instrument, and had been shot in the abdomen. An overturned chair was the only evidence of a struggle.

Slade's shot gun with both barrels loaded stood by the bed. His revolver, with every chamber loaded, was under his pillow. It is probable he was murdered while he slept.

Robbery is the only cause assigned. One dollar was found in his trousers pocket. His watch was lying on the floor still running. But his pocket-book in which he usually carried considerable money was missing.

WHAT CURES ECZEMA?

We have had so many inquiries lately regarding Eczema and other skin diseases, that we are glad to make our answer public. After careful investigation we have found that a simple wash of Oil of Wintergreen, as compounded in D. D. D., can be relied upon. We would not make this statement to our patrons, friends and neighbors unless we were sure of it—and although there are many so-called Eczema remedies sold, we ourselves unhesitatingly recommend D. D. D. Prescription.

Because—We know that it gives instant relief to that torturing itch. Because—D. D. D. starts the cure at the foundation of the trouble. Because—it cleanses, soothes and heals the skin.

Because—it enables Nature to repair the ravages of the disease.

Because—The records of ten years of complete cures of thousands of the most serious cases show that D. D. D. is today recognized as the absolutely reliable Eczema cure.

Drop into our store today, just to talk over your case with us.

LIQUID CURES ECZEMA WHERE SALVE FAILS

In regard to skin diseases medical authorities are now agreed on this:

Don't imprison the disease germs in your skin by the use of greasy salves, and thus encourage them to multiply. A true cure of all eczematous diseases can be brought about only by using the healing agents in the form of a liquid.

WASH THE GERMS OUT. A simple wash: A compound of Oil of Wintergreen, Thymol, and other ingredients as combined in the D. D. D. Prescription, penetrates to the disease germs and destroys it, then soothes and heals the skin as nothing else has ever done.

A 25-cent trial bottle will start the cure, and give you instant relief.

The County Unit Plank is Adopted.

The Democrats of Kentucky Tuesday night adopted a platform on which their candidates, previously named in a primary, will go before the people of the State and ask for their suffrage.

The fight on the county unit plank as was forecast, took place and one was inserted declaring that temperance should not be made a partisan issue between political parties, but calling for an extension of the present local option law as applied to the sale of liquors so that the citizens of each county may determine whether liquors shall be sold therein.

The plank favored by Mr. McCreary, the candidate for Governor, and former Gov. Beckham. A minority report offered by three of the 13 members of the committee—Webster Helm, of Campbell county; James M. O'Brien, of Bourbon, and Henry Watterson, of Jefferson, was defeated after a roll call contested every inch of the way, the vote as announced by the secretary being 66 to 514 against substituting the minority report for the majority plank.

The climax to the convention was as dramatic as any ever witnessed in Kentucky. All afternoon the delegates favoring the "extension of the county unit"—the phrase used by Mr. Beckham and other supporters—to designate their position wrangled at the Masonic Theater.

Things became heated from the moment the Committee on Credentials presented its report, at the afternoon session, and the interest of the delegates in the struggle waxed steadily until the dramatic moment came at the night session when the editor and former Governor appeared on the same platform. The one to uphold the principles for which he had fought since entering journalism, the other to ask the delegates to support a distinct step toward making Kentucky "dry."

The rejected plank as submitted as a substitute for Section 13 of the majority report is as follows:

"The Democratic party of Kentucky is, and has always been, a party of moderation and temperance. Every existing statute in restriction of the sale and use of intoxicants was enacted by a Democratic Legislature and approved by a Democratic Governor. Unalterably opposed to the principle of paternalism, and pledging the party to the rigorous enforcement of the laws, the Democrats of Kentucky renew their allegiance to the time-honored principle of self-government and home-rule embodied by the local option clause of the State constitution and denounce the double-dealing and hypocrisy of the Republican efforts to drag into party politics a social, moral and religious question having no proper place therein.

Congress May Adjourn Aug. 22.

Adjournment of the present session of Congress August 22, at 4 p. m., was provided for in a concurrent resolution offered Tuesday by Senator Perrore, Chairman of the Finance Committee. The resolution was referred to the Committee on Appropriations after Senators Cummins and Bristow had declared that they would oppose vigorously the adjournment of Congress until other tariff schedules, particularly steel and sugar, had been taken up and disposed of.

ONE WEAK SPOT.

Most Paris People Have a Weak Part and Too Often It's the Back.

Everyone has a weak spot. Too often it's a bad back. Twinges follow every sudden twist. Dull aching keeps up, day and night. Tells you the kidneys need help—For backache is really kidneyache. A kidney cure is what you need. Doan's Kidney Pills cure sick kidneys.

Cure backache and urinary ills. Good proof in the following statement:

C. M. Hamilton, farmer, W. Main street, Carlisle, Ky., says: "About eight years ago I was afflicted with typhoid fever which left my kidneys very weak and from that time on I was subject to attacks of kidney complaint. My back became weak and lame and if I stooped, sharp twinges, like the stab of a knife, darted through my body. The kidney secretions were also out of order being at times too frequent in passage, then again just the reverse. I recently got a box of Doan's Kidney Pills and they lived up to all the claims made for them, entirely relieving me."

Attacked by Hog.

While trying to drive a hog out of his cornfield near Berry Monday, Squire J. S. Baskett was attacked by the enraged animal which turned upon him, knocking him down and inflicting several very severe wounds, the most alarming being one on his right hand, which was nearly torn off. Mr. Baskett succeeded in getting away from the hog and going to the house secured a shotgun and returning killed the hog. Mr. Baskett was formerly a merchant of Boyd, Harrison county, and at present is Justice of the Peace of the Berry magisterial district.

Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. Bicycle Rider's Narrow Escape.

An unusual mishap befell Wm. Thomson of Old Meldrum, Aberdeenshire, Scotland, lately. While cycling against a very strong wind, the ashes from his pipe were blown behind his neck and set fire to his rubber coat, his shirt and muffler. Soon he was wrapped in flames. In vain he tried to beat them out, and he was severely burned before a farmer, who heard his shouts for help, drowned out the fire with water.

A Bleak and Barren Coast.
Bleak and barren is the west coast of South America, where it is always cloudy, yet never rains, where it is chilly even up under the equator, where never a tree nor a blade of grass is to be seen—only the parched and hungry foothills of the Andes, swept with windrows of sand, and behind them fleeting glimpses of the towering peaks of the main mountain chain. Probably nowhere else in the world is there a seacoast of equal extent so desolate and uninviting.

Harbors there are few or none. Coquimbo, 200 miles north of Valparaiso, and Callao are safe and of commercial value. But, although there are few harbors, there are many ports. The Pacific ocean, true on this coast, at least, to its name, makes it possible for a vessel to anchor almost anywhere to take and leave cargo by means of lighters. Loading and unloading the lighters at the shore are made possible by artificial breakwaters or a fortunate conformation of the land which affords shelter for small craft.—New York Post.

When You Break Cut Glass.
An accident to cut glass invariably plunges the owner of it into clouds of gloom, but often these clouds have silver linings. Before throwing the pieces away examine each piece separately and see if it could be cut down into anything smaller. Shops which deal in cut glass usually have a cutter on the premises. A case is told of a bride who upon entering the dining room arrived in time to see, but not prevent, her maid from pulling instead of pushing the extension table, and as it separated in the middle several pieces of valuable cut glass which had been placed there during the cleaning time fell through with a crash to the floor. It seemed a hopeless accident, but a rose bowl was cut down from a decanter, following the pattern near the neck, which had broken off; a small violet holder was cut down from a tall vase, a tiny sugar bowl from a vinegar cruet, and a small bonbon dish was saved from a larger cut glass bowl.—Woman's Home Companion.

A Clever Crow.
As to a crow's ability to talk, said a naturalist, some will and others will never learn. The first of the four birds I have had recently was a wonderful talker. Unlike the parrot, his conversation seemed intelligent rather than simply imitative. For instance, if I said to him, "Hello, Jack?" he would answer, "Hello," and not put on the "Jack," as so many parrots do when one says, "Hello, Polly!" But he could imitate me also. He found that when any one called and said, "Hello, Wood!" my reply was a low "Hello!" He tried in every way to imitate that low tone of mine and finally succeeded. He would go over to his water trough and with his head in the air would cry, "Hello, Wood!" Then down would go his head in the trough, and out would come the "Hello!" just like mine.—Washington Star.

Temperature of Sea Water.
The temperature of ocean water varies at the surface from 28 degrees F. at the poles to over 80 degrees F. in the tropics. The cold water toward the poles has an annual variation of less than 10 degrees F. at any one spot, and the warm water of the tropics also has an annual variation of less than 10 degrees F. in a band that nearly encircles the earth. This is the region of the coral reefs and atolls. Between these regions of small annual variation there are two bands surrounding the earth where the annual variation is greater and may exceed in certain regions 40 degrees F. at any one spot.—Marine Journal.

The Woman in the Case.
A mother-in-law had stayed so often with her daughter as to cause a quarrel with the husband. One day she found her daughter weeping in the drawing room. "What's the matter? Gracious me, don't say that George has left you!" she exclaimed. "He has," replied the young wife tearfully. "Then there's a woman in the case?" mother asked, her eyes lighting up expectantly. "Yes." "Who is it?" "You!"

A Model Horse.
Hi Billings went to a horse sale one day and bought a horse for \$18. When he got the horse home he offered it a bucket of water, but it wouldn't drink. After that he gave it a feed of corn, but it wouldn't touch that either. "By gosh," he said, "you're the very horse for me if you'll only work!"

Probably There Now.
Bobby—Pa, did you ever see an arm of the sea?
Father—Yes.
"Where was it?"
"It was hugging the shore the last I saw of it."—Smart Set.

Ourselves.
No one was ever yet made utterly miserable excepting by himself. We are, if not the masters, at any rate almost the creators of ourselves.—Epictetus.

The Yankee Twist.
"You can always tell an Englishman," said the Briton proudly.
"Of course you can," replied the Yankee, "but it doesn't do any good."

Fell Into Luck.
Artist—What a beautiful place this is! I suppose you came here for the view? Old Lady—No; I wasn't counted. I was born here.

A Few Thoughts on Money.
Money, otherwise known as tin, dough, cash, gelt, rocks, etc.

The corpuscles of national circulation which indicate the strength of our constitution.

It is often called a curse. Some swear by it, others swear for it, and still others swear at it.

It often causes a species of mental derangement or delirium called money mania. Many are willing to be thus inoculated.

It is the feature of social distinction. It is the measure of intelligence—those who have it are wise, those who have it not are foolish. Possession of it entitles one to the use of a money-gram.

Though a medium of exchange, it has no connection with souls or astral bodies.

It is the religion of today, often called moneytheism. Preachers pray for it; laymen lay for it.

It is the be all and the end all. Children cry for it, women sigh for it, men die for it, and all lie for it.—Smart Set.

Wrecked by a Knife Blade.
A ship was once wrecked on the Irish coast. The captain was a careful one. Nor had the weather been of so severe a kind as to explain the wide distance which the vessel had swerved from her proper course. The ship went down, but so much interest attached to the disaster that a diving bell was sunk. Among other portions of the vessel that were examined was the compass that was swung on the deck, and inside the compass box was detected a bit of steel, which appeared to be the small point of a pocket-knife blade. It was learned that the day before the wreck a sailor who had been sent cleaning the compass had used his pocket knife in the process and had unceremoniously broken off the point and left it remaining in the box. That bit of knife blade exerted its influence on the compass and to a degree that deflected the needle from its proper bent and vitiated it as an index of the ship's direction. That bit of knife blade wrecked the vessel.

Scotch Students.
Many a man who never had any "schooling" gets an education, and often a surprisingly good one.

A traveler in Scotland once met a farmer whose ground rent was about \$20 a year and who wrote poetry in Gaelic that was of a high order.

This same traveler met a youth in Scotland who rode from home on horseback to the seaport and then across Scotland to Aberdeen, where he sold his horse to enter the university.

It is related of another Scotchman that he was overheard repeating a line of Tennyson, whereupon some one asked him what poet he liked best.

"Homer," he replied.
"Whose translation do you read?"
"I rarely read a translation," he said, wiping the fish scales from his apron. "I like best to read Homer in the original Greek."—Minneapolis Tribune.

All About a Cruiser.
"What sort of a boat is this?" inquired the inquisitive man at the docks.

"A cruiser," replied a smart lad.
"And where is she going?"
"A cruise, sir."

"What makes it go?"
"It's screw, sir."

"Who are on board?"
"It's crew, sir."

"It looks pretty smart."
"We have to keep it clean, or rub-bish and dust would accrue, sir."

"Oh, you're too smart! Where do you come from?"
"From Crewe, sir."—London Tit-Bits.

Manhattan Scallop.
A delicious breakfast or luncheon dish is Manhattan scallop. Shred sufficient cold cooked fish to measure a good half pint. It must be free from skin and bone. Add to it one cupful of fine stale breadcrumbs, a good seasoning of salt and pepper, two well beaten eggs mixed with a half cupful of stewed tomatoes. Turn all into a buttered dish, sprinkle the top with buttered breadcrumbs, dot with bits of butter and brown in a hot oven.—Suburbanite.

Sizes of the Planets.
An ingenious way of comparing the sizes of planets with the sun is suggested by a French scientific writer. Let the earth, he says, be represented by a twenty franc piece; then Venus is 15 francs; Mars, 2; Mercury, 7; Uranus, 280; Neptune, 320; Saturn, 1,840; Jupiter, 6,800, and the sun 6,780,000.

A Time For Blindness.
There is sometimes a greater charity in seeming not to see our neighbor's trouble than in trying to relieve it. "Let me alone!" is the prayer of many a tortured heart when the curious, the officious and the tactless force the door of its place of desolation, albeit they bring wine and oil.

Looked Like a Big Dose.
The man in bed had never been sick before. The doctor, wishing to ascertain his temperature, pointed the thermometer at him and commanded: "Open your mouth, Jim."
"Wait a minute, doc," objected the patient. "I don't believe I can swallow that."—Judge.

Questions and Answers.
The time elapsing between a question and an answer is almost as important as the answer itself. It may be wisely long or short, but the longer it is the wiser must be the answer.

Let nothing shocking to eyes or ears approach those doors that close upon your child.—Juvenal.

Cheeky John Forster.
In "William Harrison Ainsworth and His Friends" the author, S. M. Ellis, tells a quaint story of Ainsworth and his friend John Forster. Ainsworth had discovered a fine set of Hogarth's engravings which was held at £5, a sum which, he said, "I could not just then spare or at least did not think I ought to spare. I took John Forster down to see the Hogarths, whereupon he actually said that he would and must have them himself and as he had not £5 of loose money at that moment I should lend that sum to him. I pointed out the absurdity of the position—that I wanted the engravings for myself and could not afford to lay out the money; how, then, could I lend it—to him? It was of no use. He overruled me, had the £5 of me and bought the Hogarths I was longing for."

The Moves in Chess.
In the number of possible moves chess stands alone among games, and not only is it perfectly safe to say that no living man has ever made even once every possible move, but it is highly improbable that in all the centuries of the history of the game has every possible move been made. The different ways of playing the first four moves on each side are so numerous that if every man, woman and child in a city of half a million population were to set to work playing them at the rate of four moves a minute night and day it would be more than a year before any one would be able to leave the chessboard.

A Freak Tortoise.
"Patrick, Patrick!" admonished a lady. "Be careful where you are walking! You nearly trod upon my darling tortoise!"
"Och, be aisy, me lady!" rejoined her Irish gardener. "Shure an' I wouldn't hurt a hair of his head, the sweet creature!"—London Telegraph.

His Choice.
Kindly Old Man—Well, my little man, what would you like to be when you grow up?

Little Man—I'd like to be a nice old gentleman like you, with nothin' to do but walk around and ask questions.

His Protest.
A bright little lad heard his parents talking about the salaries of teachers. "I don't see why they should pay the teachers," he said very seriously, "when we children do all the work."

Mixed.
Policeman (to clubman returning home late)—Here, you can't open the door with that. It's your cigar. Clubman—Great Scott, then I have smoked my latchkey!—Rire.

Some of the best and happiest hours possible to a man's life are held in trust for him, so to speak, by his fellow men.

ALL MY PIMPLES GONE

Girl Tells How a Blotchy Skin Was Cleaned By a Simple Wash.

"I was ashamed of my face," writes Miss Minnie Pickard of Altamahaw, N. C. "It was all full of pimples and scars, but after using D. D. Prescription I can say that now there is no sign of that Eczema, and that was three years ago."

D. D. D. has become so famous as a cure and instant relief in Eczema and all other serious skin diseases, that its value is sometimes overlooked in clearing up rash, pimples, blackheads, and all other minor forms of skin impurities.

The fact is, that while D. D. D. is so penetrating that it strikes to the very root of Eczema or any other serious trouble, the soothing Oil of Wintergreen, Thymol and other ingredients are so carefully compounded there is no wash for the skin made that can compare with this great household remedy for every kind of skin trouble.

D. D. D. is pleasant to use, perfectly harmless to the most delicate skin, and absolutely reliable. A 25-cent bottle will give you positive proof of the wonderful effectiveness of this great remedy.

Nature's Scenery Shifting.
Although in the geological past vast changes of level occurred on the borders and even in the center of continents, it is a debated question whether at present similar elevations and subsidences can be detected. Recently the frequently repeated statement that the coasts of Massachusetts and New Jersey are perceptibly sinking has been disputed, the apparent subsidence being ascribed to simple changes of shore line. But some curious records kept in Europe seem to indicate that actual fluctuations of the level of the land may occasionally be observed. In the valley of the Main a church tower hidden behind a mountain screen has since 1861 gradually risen into plain view from the chateau of Strossendorf, and still farther in the same direction another church tower, which began to be visible from Strossendorf eighty years ago, is now clearly seen above the horizon and is said to rise higher as time goes on. Similar records exist in Bohemia, in Switzerland, in Spain and in the French Jura.

Ocean Derelicts.
There is an old dread of encountering a derelict that is just below the surface of the water. There is no such danger. A derelict that will sink below the surface will sink to the bottom. Take a tub of water and try to find any object that will unattached occupy a position that is other than at the surface or at the bottom. There is a long task ahead of you. There is the false theory that the water grows denser as one goes deeper and that a sinking object will find a place where it will remain suspended. This theory is not correct, and a boat that will sink beneath the surface will sink to the bottom, even if that bottom should be twenty miles down. The derelict that is bumped into has a piece of itself sticking out of the water as an alarm if the eyes of the lookout are only sharp enough to catch it.—New York Tribune.

Knew the Boundary Line.
The friends of a couple in Cleveland, in whose household no doubt exists as to who is the head of the family, tell an interesting story relative to the last trifling passage at arms between husband and wife. One evening just before dinner the wife, who had been playing bridge all the afternoon, came in to find her husband and a strange man (afterward ascertained to be a lawyer) engaged in some mysterious business over the library table, upon which were spread several sheets of paper.

"What are you doing with all that paper, Henry?" demanded the wife.
"I am making a wish," meekly responded the husband.
"A wish?"
"Yes, my dear. In your presence I shall not presume to call it a will."—Lippincott's.

Not a Hindrance.
It was a revival meeting, and the church workers were working up and down the aisles. A gray haired woman past middle age approached a sedate looking gentleman who occupied a rear seat on the end of the row. Placing her hand on his shoulder with maternal touch, she said:
"Don't you think you would like to be a Christian?"
"My dear madam," he began, "don't you know that I am professor of theology in the little seminary at the other end of the town?"
The woman, a homely character, and ignorant of the "isms" and "ologies" of the modern curriculum, gave answer in smooth accents:
"Well, my dear brother, don't allow a little thing like that to stand in your way."—Philadelphia Times.

Garrick and Kitty Clive.
Kitty Clive, the paramount soubrette of Garrick's time, was celebrated for her temper and her spiteful tongue. She denied "little Davy" had skill in tragedy and mocked at him when he prepared to put on "Hamlet." During the performance she stood in the wings, intending to scoff, but she was carried away with enthusiasm in spite of herself and applauded vigorously.
"Well, Kitty," asked Garrick as he came off the stage, "have I convinced you that I can act in tragedy?"
Kitty burst into tears of vexation, declaring, "Why, — you, Davy, you could act a gridiron!"

Immense Sums Given Ball Players.

When the 1911 season opened there was much talk of the new batting records, which would go up owing to the new ball concerning which there has been much talk all year. And there is one concern in the United States which can vouch for the fact that the new ball has done something more than create a lot of talk.

Blackwell's Durham Tobacco Company, the owners of the herds of bulls which are grazing in almost all the base ball parks throughout the country, have finally reached the conclusion that the new ball is made of "Injer" rubber, instead of all the yarn, etc., which the manufacturers claim.

The tobacco company's claim rests on the records which have been made on their 186 Bull Durham signs, which have been hit 138 times, making a total of \$6,900 which has been given to the players who were able to meet the new balls squarely.

In these parks where the bulls appear there has been 2,460 home runs recorded, which have been the means of the heavy hitters receiving free Bull Durham to the extent of 11,070 pounds.

A special account of the doings in the Blue Grass League is given herewith to August 9, 1911:

Lexington—The Bull sign was hit on June 25 by Charles Ellis, Lexington; July 30 by Pat Bohannon, Frankfort. There have been 26 home runs recorded, making a total of 117 pounds of Bull Durham Tobacco.

Maysville—The Bull sign has not been hit. There have been no home runs recorded.

Richmond—The Bull sign was hit on May 29 by Ed Coleman, Winchester; May 29, by Robert Bramlage, Richmond; May 30 by Ray Haley, Richmond; May 31, by Frank Whitaker, Richmond; June 28, by Texas Myers, Frankfort; July 21 by Ray Haley, Richmond. There have been 34 home runs recorded, making a total of 153 pounds of Bull Durham Tobacco.

Paris—The Bull sign has not been hit. There have been 7 home runs recorded, making a total of 31 1/2 pounds of Bull Durham Tobacco.

The Bull signs in the Blue Grass League have been hit 9 times, making a total of \$450 which was given to the lucky players. There have been 67 home runs recorded, making a total of 301 1/2 pounds of Bull Durham Tobacco.

More Mules Needed.

An exchange says: "This country never has too many mules. There is always a buyer at a fair price for every mule that is raised. They are easy to raise and hard to kill off by hard work, so at the end of their lives they are money makers. According to government estimates the average farm price of mules in this country has always been higher than the average price of horses. There is not so much value put upon the best mules for show and advertising purposes as upon the best horses, and on the other hand, there are probably not so many plows among mules as among horses. Privation and hardship are borne bravely by the mule. His spirit is seldom in an ecstasy of exuberant enthusiasm, nor does it succumb to the discouragement of an unremitting grind of toil. Patient and equable in temper and hardy in body, the mule is fitted for the hardest, most wearing kind of labor. Is it any wonder that market prices reflect his wide appreciation? So great is the demand for mules that parties on the Pacific coast have recently been investigating the feasibility of importing mules from China.

Fathers Shot to Death.

In a pistol duel on the streets of Silversville Hannibal Ross and Marion Strunk were shot to death. Their sons, John Strunk and Burl Ross, were probably fatally wounded. The shooting is the result of an old feud, and other members of both families also took part.

Cattle Shipped East.

Monte Fox of Danville, shipped from Paris Wednesday night a fine bunch of export cattle to the Eastern market. Following is a list of the farmers who sold to Mr. Fox, together with the number of each and the prices paid: From Amos and Jesse Turney, 43 head, averaging 1,450 pounds, at \$5.85 per hundred; from J. C. Bryan, 61 head averaging 1,350 pounds, at \$5.65 per hundred; from J. T. Estes, 32 head, averaging 1,400 pounds, at \$6 per head; from W. G. McClintock, 20 head, averaging 1,380 pounds, at \$5.80 per hundred.

Receiver for Burley Concern Asked.

Insolvency, a reckless expenditure of money belonging to poolers and abandonment of the whole theory and scheme of the pool, are among the charges made in the petition of J. D. Grover, James W. After defeating Richmond Monday Scheneberg came back Tuesday afternoon and administered a defeat to the Hustlers, Paris winning by a score of 7 to 4.

Burden, erstwhile enigma, presented an assortment of slants to the taste of the locals who found him for twelve safe hits.

In only one inning did Scheneberg show any signs of weakening and that was in the fourth when the visitors counted their first runs. Twice they had the bases clogged, but three runs was the best they could do.

The locals started early in the game and in the first session put over three runs. Harrell was out on a high one to Laross. McKernan singled and Goodman followed suit. Barnett doubled, McKernan scoring and Goodman taking third. Both men were sent over when Maxwell singled to center. Kuhlman and Chapman hit into outs.

Another run came in the third. Goodman singled and Barnett walked. On Maxwell's out Goodman took third, scoring when Coleman dropped Kuhlman's high fly. Chapman sent a hot liner to Burden and the side was retired on a neat double.

The visitors on four hits and an error counted three runs in the fourth. Goostree, Coleman and Brown singled in succession, filling the bases. Kuhlman's error permitted Goostree to score, and Reed's single sent Coleman across the plate. Laross went to third on a choice when Meek hit into a double. Burden fled to Chapman.

Not to be outdone the Bourbonites counted another trio in their half after two were down. Maffitt singled and was forced at second on Scheneberg's grounder. Scheneberg in turn was forced out by Harrell. Harrell stole second, scoring when Laross dropped McKernan's fly close to the left foul line. Goodman, Barnett and Maxwell followed with singles in rapid succession on which McKernan and Goodman scored.

On an error, a pass' ball and single in the sixth the visitors scored another run. The score:
Winchester . . . 0 0 0 3 0 1 0 0 0-4
Paris . . . 3 0 1 3 0 0 0 0 x-7
Batteries—Winchester, Burden and Meek; Paris, Scheneberg and Maffitt.

Paris and Winchester engaged in a slug-fest Wednesday afternoon and the league leaders received the most terrific drubbing. The contest was started with Hauser on the mound, and the locals took a good lead in the opening round, but the Paris hurler weakened and after a dozen runs had been made he was jerked from the mound and Harrell substituted.

Harrell could not stop the slaughter and safeties went to the outfield. Singles, doubles and triples came in profusion and rapid succession and when the contest closed the Hustlers had eighteen runs and twenty safe drives.

The locals connected with Platzter frequently but the hits were well scattered and after the initial inning there was nothing more doing in the run getting for the McKernan men.

Goostree was easily the star getting five hits out of six times up while Coleman, the Hustler chief, failed to connect with the ball safely. The score:
Paris . . . 4 0 0 0 0 0 0 0 0-4
Winchester . . . 1 0 0 5 7 2 0 3 x-18
Batteries—Paris, Harrell, Hauser and Maffitt; Winchester, Platzter and Meek. Hits—Paris 11, Winchester 20. Errors—Paris 5, Winchester 4. Earned runs—Winchester 6. Three base hits—Lake, Goostree 2. Two base hits—Harrell, McKernan, Walsh 2, Brown, Laross, Goostree 2, Meek 2, Platzter. Struck out—by Hauser 1, by Platzter 4. Time—1:50. Umpire—Moss.

Lexington 2, Maysville 1, Richmond 7, Frankfort 7, fourteen innings.

THURSDAY.

Paris and Frankfort came together in a full nine round contest at White Park yesterday afternoon and the moralized league leaders went down in defeat before Bohannon and his men, but with cools flying although minus their interpid leader, McKernan.

From the outset the visitors had the best of the argument, taking a lead in the first session which was maintained throughout, and although they hit Baker as many times as the Lawmakers connected with Hauser, Maxwell and Shears, but could not get enough runs to overcome the lead.

Hauser could not withstand the jolts of the Lawmakers and in the fourth was relieved by Maxwell, who presided on the mound until the seventh when he was ejected from the park by order of Umpire Donald. Shears finished the contest in a handy fashion, but the Lawmakers had gotten in their work too early in the action.

Baker, who beat the locals on his first appearance here, came back yesterday and repeated the dose. The Bourbonites hit repeatedly but without result.

The climax which will put the contest on record came in the seventh inning. Maxwell had passed Seaback and Myers, and Bohannon, who was at the bat, attempted to lay down a sacrifice. Donald misjudged his efforts and called a ball. To this Maxwell took exceptions and heated words followed, resulting in the husky hurler dealing the official a tremen-

ous blow in the abdomen with his foot and hurled the ball at his head. McKernan then advanced to the scene of action and contributed a blow with his glove in the face of the official.

At this juncture the police interfered and prevented further hostilities. McKernan and Maxwell were ordered out of the enclosure before the game would proceed.

A number of spectators, disgusted at the action of the Paris players left the grounds, while others contend the assault was justifiable, owing to the incompetency of the official. Looked upon from either view it was a bad break and one calculated to do more harm than good. Incompetency even in its worst form is not enough to provoke an assault upon an umpire by any player, even if upon the face it is enough to arouse the wrath of the men in the game.

The action of McKernan and Maxwell does not meet with the approval of even their heartiest admirers and such rowdism has a demoralizing effect upon the fans. The score:
Frankfort . . . 2 0 3 0 2 0 0 0-7
Paris . . . 0 0 0 2 1 0 0 0-3

Batteries—Paris, Hauser, Maxwell, Shears and Maffitt; Frankfort, Baker and Kunkle. Hits—Paris 6, Frankfort 6. Errors—Paris 5, Frankfort 2. Two base hits—Seaback, Bohannon, Barnett. Three base hit—Maxwell. Base on balls—off Hauser 1, off Maxwell 3, off Shears 2. Struck out—by Hauser 3, by Maxwell 4, by Shears 4. Wild pitch—Maxwell. Pass ball—Maffitt. Hit by pitcher—Hoffman. Three hits off Hauser and 5 runs in 3 innings; no hits and 2 runs off Maxwell in 3 innings. Stolen base—Hoffman. Sacrifice hits—Konick, Baker. Time—2:35. Umpire—Donald.

A Crackerjack.

The Maysville Independent says of the vaudeville attractions that will be at the Grand tonight: "The management of the Washington Theatre offered a crackerjack show for their patrons' approval and to say it was good is putting it mild. Either act is good enough for a headliner. Anton Zinka and his dogs were a hit, while Van & Davis made more than good with their singing and dancing."

Base Ball Season Nearing Close.

The close of the base ball season in the Blue Grass League is just a little more than two weeks off. From the present date there are nine games scheduled on the home grounds and a total of nineteen to be played before the season closes, ten of which are away from home.

Today the Hustlers will be in town for a tilt with the locals and after trimming the McKernan men in such a handy fashion Wednesday will come with renewed energy for the fray at White Park this afternoon. Tomorrow the Bourbonites will journey to the Hustler town for the fourth game of the week.

Sunday afternoon Paris and Winchester will meet here in a double bill. The locals must put up a strong fight to recover the lost ground of the past two days and much depends upon the result of the next four games with Winchester. The first game Sunday afternoon will be called at 2:15 o'clock.

Captured in Paris.

Holt White, wanted in Winchester for assaulting Edward Wills in that city, was captured in Paris Sunday and taken to Winchester. Wills, who is a cousin of James Wills, of Paris, conducts a pool room in the Brown-Procortia Hotel, had just closed up and started home. At the mouth of an alley he was struck on the head and rendered partly unconscious, while his assailant cut him several times and robbed him of ten dollars. White was held under five hundred dollar bond.

THEATRICAL.

—Latimore & Leigh, whose excellent repertoire company has played many engagements in this city will open the season of 1911-12 at Maysville on September 4.

—The Shubert Theatrical Company was incorporated at Trenton, N. J., Tuesday with an authorized capital of \$1,800,000. The incorporators are William Klein, Charles A. Bird and Joseph W. Jacobs, all of New York. The charter indicates that the corporation is to take over all the property and business of the New York company operating under the same name.

RELIGIOUS.

—Rev. E. M. Lightfoot will fill his pulpit at the Baptist church Sunday morning. Rev. Lightfoot will preach at the union services Sunday night.

—Union services will be held at the Presbyterian church Sunday evening. Rev. O. B. Crockett, who had previously been selected to fill the pulpit on this occasion being absent from the city, Rev. E. M. Lightfoot, of the Baptist church, will preach the sermon. Rev. Lightfoot will preach from the subject, "A Notable Embassy."

DEATHS.

—Mrs. Agnes L. Franklin died Friday night at 7:30 o'clock at her home in Frankfort. She was in her seventy-eighth year, and during her long womanhood had been an unwavering member of the Methodist church. She had been in feeble health for some weeks.

Mrs. Franklin before her marriage was Miss Agnes Brawner, the daughter of the late Robert Brawner, who was prominent in Franklin county for many years. After receiving a liberal education she taught school in Frankfort for many years, and was a most successful teacher. She married Walter Franklin, who was Circuit Clerk of Franklin county for more than thirty years, and who was regarded as one of the best clerks in the State. Mr. Franklin died several years ago.

Mrs. Franklin is survived by three children, Robert B. Franklin, the Commonwealth's Attorney of this district; Walter M. Franklin, of Chicago; and Mrs. James N. Miles, of Frankfort.

Two Aviators Killed.

Two aviators, William R. Baddger, of Pittsburg, and St. Croix Johnstone, of Chicago, lost their lives at the international aviation meet at Chicago Tuesday. Baddger was killed in an aviation pit and Johnstone was drowned.

Tournament is Postponed.

The tennis tournament for a handsome silver cup given by E. H. Watson, of Lexington, which was scheduled to begin at Woodland Park in that city Tuesday was postponed until some time next fall. It had been expected that the contest would be entered by players from Louisville, Somerset, Paris and Versailles, but as no out-of-town entries were made, it was decided to postpone the tournament.

Recommends Vote for Sewer Bonds.

The Board of Health of Lexington, at a meeting Tuesday recommended to the City Council the passage of an ordinance submitting to the voters in November the question of issuing bonds to the amount of \$150,000 to be expended in improving the sewerage system of Lexington.

Quail Will Be Plentiful.

The continued dry weather, says the Carlisle Advocate, has been responsible for the largest number of quails known since the days when they used to be driven into nets for capture. Since early spring farmers have been reporting great flocks of little ones, and the old birds are still hatching.

STRAYED.

New Order Issued.

The State Live Stock Sanitary Board Tuesday issued an order from the office of Commissioner of Agriculture Rankin providing that cattle of the quarantine are designated by the United States Government, infected with margaropus annulatus ticks and splenic fever, shall not be shipped into Kentucky except for immediate slaughter from February 1 to October 31. The only months left open for the shipment of cattle are November, December and January.

The Live Stock Sanitary Board has received the report of Dr. A. J. Payne, of the National Board of Animal Industry, who has charge of the work of eradicating the scabies from the sheep of this state. Work has been done in 105 counties, inspecting 605,000 sheep, and of this number 42,000 have been found infected, and there have been 64,000 official dippings. Dr. Payne also reports that a corps of inspectors will be sent to Kentucky from Washington for the purpose of inspecting the inspected flocks and for lifting the quarantine.

Picked Dynamite Cap With Pin.

While playing with a dynamite cap which he had found at the railroad construction camp near the old Frankfort pike trestle of the Queen & Crescent railway Monday afternoon, Henry Reeves, of Lexington, aged 10 years, picked the cap with a pin which caused it to explode, tearing off all his left hand except the little finger and also the first joint of the thumb on his right hand.

First-Class Barber Shop.

Mr. H. C. Curtis has accepted a position at Cahal's barber shop. This makes four chairs Mr. Cahal is now running and it is no trouble to catch a turn and get a first-class shave in a short space of time. Hot and cold baths and polite attendants to wait on their patrons.

Colored Women Fined.

Six colored women residents of the negro suburb of Clayville, were in Squire L. J. Fretwell's court yesterday, charged with a breach of the peace. The women who had been engaged in several rows in Clayville were Mary Case, Carrie Fisher, Hutch Evans, Willie Johnson, Sis Washington and Florence Harper. A fine of \$13.50 was assessed by the court in each case.

George Pugh Killed by Employee.

A press dispatch from Taylorsville gives the following account of the killing of Mr. George Pugh, formerly of Scott county and well known here: "In plain sight of thousands of people attending the Spencer County Fair John A. Cottrell, a farmer living on the Waterford pike, four miles from Taylorsville, drew a pistol from his pocket and fired point-blank at George Pugh, 70 years old, for whom he had been engaged to drive horses at the fair. The bullet struck Pugh in the forehead over the left eye and lodged in the brain, causing instant death. "Following the firing of the shot there was wild excitement on the fair grounds and Deputy Sheriff John W. Snider, scenting trouble, grabbed Cottrell and before the people realized his intention, was hastening toward Taylorsville, about a mile distant. "Before the deputy sheriff and his prisoner had gotten well out of sight a mob of more than 250 determined men was formed and started for the jail with the avowed intention of seeing that justice moved promptly. "When Deputy Snider reached the jail he received a message telling of the pursuit by the mob and went immediately to the railroad station, catching the first train that came through. He landed in Shelbyville with his prisoner later in the afternoon. The mob, hearing of the deputy's escape with his prisoner, turned back to the fair grounds after having covered about half of the distance to the town. "It is alleged by witnesses who stood near the men that they quarreled over wages demanded by Cottrell. He had been hired to drive horses in the show rings by Pugh, it is said, but did not do his duties to the satisfaction of his employer, and when he demanded money and was refused, it is said, the shooting followed. "Pugh is survived by a wife and six children. Cottrell has a wife and three children. "Mr. Victor Howard, formerly of B. H. H., was married to Miss Lillian Pugh, a daughter of the deceased.

—Anti-Tuberculosis League Organized.

At the home of Mrs. W. E. Simms, on Mt. Airy Avenue, Monday morning, a local Anti-Tuberculosis League was organized, with Miss Lucy Simms, one of the directors of the state organization, presiding. The purpose of the organization will be to enlist the co-operation and interest of every citizen in Bourbon county and increase the membership until it shall become a strong factor in teaching the cause, prevention and cure of the disease which causes more than 6,500 deaths every year in this state, and of which there are more than 20,000 active cases.

The first active work of the local league will be to have the Traveling Health Exhibition Car, which is being sent through the state by the Kentucky Association for the prevention of Tuberculosis, come to Paris Thursday August 24, and remain until Sunday, August 29.

The Health Exhibit Car is a modern railroad passenger coach fitted up as a traveling health exhibit by the Kentucky Association for the study and prevention of tuberculosis. At each stopping place the public is invited to witness the exhibit, free of charge, and to hear practical talks about consumption and other infectious diseases. The car is well stocked with charts, mottoes and model houses showing where the danger can be prevented, in a way that every man, woman and child can understand it.

Wherever shown, the exhibit has attracted large crowds of people who were greatly benefitted in getting a clear understanding of Kentucky's most fatal disease, the Great White Plague.

Three Negroes Arrested.

At the instance of Henry Randolph, a colored grocer, of Lexington, George Turner, Otis Kinkston and William Maupin, negroes, were arrested in this city Wednesday afternoon and lodged in jail by Partolman Chas. Thomas.

The men are charged with breaking into the grocery of Randolph Saturday night when \$115 and a revolver were stolen. Randolph followed the men to Paris where he was on the lookout and informed the officer.

When arrested, a pistol and some money was found. Turner has lately been released from jail in Cincinnati where he served a term after being convicted on a burglary charge.

Detective Dudley Veal came from Lexington yesterday morning and took charge of the men returning with them to Lexington.

Killed by Freight Train.

Ike Hollan, aged 50 years, a bridge carpenter in the employ of the L. & N. railroad, was killed by a south-bound freight in the south yards about 6:30 o'clock last night.

Hollan, whose home is in Ford, had given up his position with the crew working in this city and was about to return home. In the south yards he made an attempt to board an outgoing train. Missing his footing he fell beneath the fast moving cars.

His right leg was crushed and a thorough examination failed to reveal another injury. It is the opinion he died from the shock.

His body was picked up and taken to the undertaking establishment of Geo. W. Davis where it was prepared for burial. Hollan is survived by a wife and ten children.

MATRIMONIAL.

—A marriage license was issued Monday by County Clerk Pearce Paton to Mr. Ross Poe and Miss Bertha May Case, both of this county.

—Mr. Gus Tyree, of Georgetown, and Miss Viola Day, of Cane Ridge, this county, were united in marriage Wednesday afternoon at 4:30 o'clock at the residence of Mr. and Mrs. Clyde Tyree on Higgins avenue, by Elder Carey E. Morgan.

A Double Risk.

It was well known in Mayville that when Cyrus Fanning lent anything, from a hammer to a plow, he expected a good return for the favor. It was a matter of astonishment to Wilson Green, however, when on inquiring of Mr. Fanning how much it would cost to rent his long ladder for an afternoon Cyrus replied promptly, "One dollar fifty."

"Now, look here, Cy," remonstrated his neighbor; "you know I've got to borrow it, for mine isn't long enough to reach where I'm obliged to climb to search out that chimney leak for the Widow Sears. Can't you make it less?" "No, I can't," and Mr. Fanning shook his small head and closed his obstinate mouth.

"Why can't you?" demanded Wilson Green.

"Because there's a weak place in it two-thirds the way up!" snapped Mr. Fanning. "It'll bear my weight all right, but you're a good thirty pounds heavier. If it gave way under you 'twould cost me a dollar to get it mended. Considering the risk, I call a dollar 'n' a half cheap."—Youth's Companion.

The Seal Ring.

The seal ring is known to be the oldest style of ring. It dates back to the days of the Old Testament, and products of the glyptic art, as gem engraving was called, were known in the most remote times. In Exodus xxviii, 17-20, mention is made of the following stones, upon which the names of the twelve children of Israel were engraved: The sardius, the topaz, the carbuncle, the emerald, the sapphire, the diamond, the ligure, the agate, the amethyst, beryl, onyx and jasper. In verse 2 of the same chapter we find mention of the engraving of signets upon the hardest stones. It is believed that the Egyptians instructed the Israelites in the art of stone engraving. The Egyptians used the lapidary's wheel and emery powder and knew the use of the diamond in engraving other hard stones. Among the Assyrian and Babylonian ruins were found fine specimens of signets on gems, many of them set in rings.

Oddities of the Printing Shop.

Here is a row of capital letters and figures of ordinary size and shape just as you will find them in the daily newspaper:

SSSSXXXXZZZZ3338888

They are such as are made up of two parts of similar form. Look carefully at these and you will perceive that the upper halves of the characters are a very little smaller than the lower halves, so little that, at a mere glance, you would declare them to be of equal size. Now turn this page upside down, and without any careful looking you will see that the difference in size is very much exaggerated—that the real top half of the letter is very much smaller than the other half. It will be seen by this that there is a tendency in the eye to enlarge the upper part of any object upon which it looks. Thus two circles of unequal size might be drawn and so placed that they would appear exactly alike.—New York World.

Wanted Them Green.

"Two starboard lights," said the diner to the waiter in a Broadway restaurant.

The waiter looked over the wine list, and his eye ran down to the liqueurs, for his two patrons had reached the post coffee stage of their dinner. He looked blankly at the list. He could see no such cordial.

"Starboard lights, sir?" he asked.

"Yes; starboard lights—two—and hurry!"

The waiter sought the maitre d'hotel and asked what the drink might be.

"Creme de menthe," said that imperturbable person. "It's what they call 'em in England."—New York Press.

A Big Drawback.

A man was praising the improvements by a friend in his dwelling.

"Your house looks a lot better now that it has been painted."

"Well," the man who had been redecorating admitted gloomily, "it does look a bit better, but we shall have to clean the windows more frequently to keep in harmony with it."

A Calamity.

Neighbor—My! My! So the story is true and your husband has really eloped with the servant girl. Deserted Wife (weeping)—Yes, and she was the best girl I ever had, too, a perfectly lovely cook, and so quiet and respectful. Dear knows where I'll be able to get another!—Philadelphia Times.

Money.

Money is character; money also is power. I have power not in proportion to the money I spend on myself, but in proportion to the money I can, if I please, give away to another.—Bulwer Lytton.

Bait.

She—Why, Charlie, you seem to have become quite a man of fashion—such clothes, such jewelry! He—Yes; you see, my creditors are very anxious that I should get married.—Simplicissimus.

Their Use.

"Do you enjoy your meals, old man?" "Enjoy my meals?" snorted the indignant dyspeptic. "My meals are merely gulped to take medicine before or after."—Washington Herald.

The Way of the World.

"Isn't it awful? According to the papers there just seems to be one revolution after another." "Yes. That's the way the world goes round."—Judge.

Be Happy!

Happy the girl, or woman, who has never suffered from any of the diseases of womanhood! Or, if she has been a sufferer, happy is she if she has learned of the wonderful benefits of Cardui, the woman's tonic!

Cardui is a gentle, tonic remedy, for women's ailments. It is a natural medicine—safe, harmless, purely vegetable. It has been in successful use for more than 50 years. It has cured thousands. It should do the same for you.

TAKE The CARDUI Woman's Tonic

Mrs. Mary Neely, of Denver, Tenn., says, "I think there is no tonic on earth, as good as Cardui. I used it with the very best results. I had backache and nearly everything a woman could suffer with, until I took Cardui. Now, I feel better than I have for two years. I shall always recommend Cardui to other suffering women. I can't praise it too highly. As a medicine for weak, tired, worn-out women, Cardui is safe and reliable. Try it, today."

Tortured for Fifteen Years.

by a cure-defying trouble that baffled doctor, and resisted all remedies he tried, John W. Modders, of Moddersville, Mich., seemed doomed. He had to sell his farm and give up work. His neighbors said, "he can't live much longer." "Whatever I ate distressed me," he wrote, "till I tried Electric Bitters, which worked such wonders for me that I can now eat things I could not take for years. It's surely a grand remedy for stomach trouble." Just as good for the liver and kidneys. Every bottle guaranteed. Only 50c at Oberdorfer's.

Happiness in the Home.

I do not think there are any happy homes without the Lord is in the family, says a writer in an exchange.

Ambition.

Ambition can creep as well as soar. The pride of no person in a flourishing condition is more justly to be dreaded than that of him who is mean and cringing under a doubtful and unprosperous fortune.—Burke: "Letters on a Regicide Peace."

Strength in Nature.

The looest weed that drifts and waves under the heaving of the sea or hangs heavily on the brown and slippery shore, has a marked strength, structure, elasticity, gradation of substance; its extremities are more finely fibered than its center, its center than its roots; every fork of its ramification is measured and proportioned; every wave of its languid lines is love. It has its allotted size, and place, and function. It is a specific creature.—Ruskin: "The Seven Lamps of Architecture."

WASH THAT ITCH AWAY

It is said that there are certain springs in Europe that give relief and cure to Eczema and other skin diseases. If you knew that by washing in these waters you could be relieved from that awful itch, wouldn't you make every effort to take a trip to Europe at once? Would you not be willing to spend your last cent to find the cure?

But you need not leave home for these distant springs. Relief is right here in your own home town!

A simple wash of Oil of Wintergreen, Thymol and other ingredients as compounded only in D. D. Prescription will bring instant relief to that terrible burning itch, and leave the skin as smooth and healthy as that of a child.

If you have not already tried it, get at least a 25-cent bottle today. We assure you of instant relief.

MADDENED THE BEAR.

Ingenious Trap That Was Formerly Used by the Mexicans.

The Mexicans in California had an ingenious method of trapping bears before the advent of the Yankees brought modern firearms into the region. A piece of meat was nailed to the stout horizontal limb of an oak tree. From a limb five or six feet above a rope was suspended, to the end of which a large stone was made fast so that it hung about six inches above and a trifle nearer the trunk than the meat on the lower limb.

When a bear smelled the meat from afar he would climb up the tree and make his way to the bait. In doing so he would push the stone pendulum to one side. Just as he was about to fasten his teeth in the meat the stone would swing back and bang his head. This would arouse the anger of the bear, and he would give the stone a sweep of his paw which would send it swinging farther out. The consequence was a harder bang and more anger. The more he struck the stone the harder he would be hit in return, until from ferocious anger he would lose his caution and attack the pendulum with all his vigor. One powerful sweep, then bang, and bruin would be tumbled out of the tree to the rocks below, where, disabled by his fall, he would be at the mercy of those who set the trap whenever they chose to take him.

THE HANDY MAN.

His Job of Varnishing the Door Was Not a Howling Success.

Mr. Brewster thought his front door looked as though a coat of varnish would do it no harm and resolved to do it himself to save the expense of a painter.

Finding an old "golden sirup" tin in the yard, he went off to the shop for some "best oak varnish." He placed it in the pantry for the night and was up early next morning and by half past 12 had got the door finished.

"I don't like it now it's done," he said to his wife.

"It's bad varnish," replied she. "He's sold you the wrong sort of stuff."

He thought so, too, and went back to the shop, taking what was left with him.

"This is funny varnish you sold me," said he. "It's dull, sticky stuff."

After examining it the shopman said: "This is not what I sold you. This is sirup!"

It then dawned on him that he had got hold of the wrong tin, and he went back home to explain to his wife, who at once said: "Good gracious James! And I've made the pudding with the other tinful!" Then, after a moment's pause, "You'll dine today on roast mutton and varnish pudding!"—Pearson's Weekly.

The Gallery Gods' Applause.

Lawrence Barrett once told of a conversation he had with Edwin Booth. The latter had been congratulated upon an ovation given him by a crowded house on the opening night of an engagement. "The sweetest music to my ears," said the great tragedian, "is the shouting of the boys in the gallery. I know they are not applauding because I have a reputation or because they wish to make a display. They simply give vent to their natural enthusiasm. When they shout I know that I am giving a good performance. As for the parrot, it may clap its hands out of politeness. A dramatic critic who had certain notions as to how a line should be read will applaud if I read it his way; otherwise he will remain quiet. I can never analyze the applause of the front rows, but the gallery is sincere in its likes or dislikes."

Shakespeare's Education.

Shakespeare could not have been an educated man, that is, in the academic sense of the word, for he was a mere youth when he went to London from Stratford and had had, up to that time, only such mental training as he could pick up in the schools of his native town. It nowhere appears that he attended school after leaving Stratford.

And yet, as Matthew Arnold says, he lived during his London residence "in a current of ideas in the highest degree animating and nourishing to the creative faculty in a society permeated by fresh thought, intelligent and alive."

And he used not only the ideas which he imbibed as they floated around him, but all the learning he could pick up without neglecting his calling.—New York American.

Drawing the Disease Out.

The Chinese have a curious custom of trying to cure a sick man. A friend of the patient obtains a straight branch with a few leaves and twigs at the end. On this he hangs a mirror of polished steel, and under that one of the sick man's coats. Then he goes for a short walk, a priest in the meantime performing a ceremony. The coat, being carried in this way, is supposed to draw the disease from the sufferer.

Just So.

"He doesn't really love you. He's after your money."

"But if his love were not genuine how could he put so much fervor into his wooing?"

"Oh, a man can dig up considerable fervor when he has to marry money or go to work."—Exchange.

LAXATIVE SENT FREE TO TRY

It may be taken for granted that there is no family that does not sometime need a laxative. If you don't know of a good laxative, or the laxative you are using is losing its effect, we want to call your attention to Dr. Caldwell's Syrup Pepsin, which thousands of families are using successfully.

We have scores of letters from mothers, and scores from prominent men saying they are using it personally and giving it to their families, men like Mr. C. K. Smith of the Traffic Clearing House, Pine Bluff, Ark., and Mr. George B. Turner, a lawyer of Harlan, Ky. The thousands of mothers who use it themselves and give it to their children would take too much space to mention.

The reason they prefer Syrup Pepsin is that it is a mild, gentle laxative.

tive-ionic that does not gripe—effective and yet so mild that babies can take it. Its tonic ingredients invigorate the body and strengthen the stomach and bowel muscles so that they again do their work naturally. If you have been a victim of salts, pills and strong cathartics you will discard them when you once use Syrup Pepsin.

You can buy a fifty cent or one dollar bottle of any druggist, but before doing so you may want to try it free. If so, send your address to Dr. Caldwell and he will promptly forward a free sample bottle. Then, being convinced, do as others are doing and buy it in the regular way of your favorite druggist.

For the free sample address Dr. W. B. Caldwell, 402 Caldwell building, Monticello, Ill.

Tenement House Damaged by Fire.

The fire department was called out Wednesday afternoon in response to an alarm from Box 31, near Eleventh street, where a frame cottage was burning fiercely.

The fire originated from a coal oil stove, which was left burning in the hall upstairs. It is supposed that the blaze was turned too high and ignited the paper on the walls of the narrow passage. The flames quickly spread, the entire roof was burned and nothing was saved from the second floor, the contents which were not destroyed by the fire being ruined by the water.

The fire department prevented the spreading of the fire to adjoining frame structures, as a stiff breeze was blowing. The roof of the house belonging to Mary A. Judy and the stable belonging to Mr. W. L. Yerkes, on the opposite of High street, caught but no damage was done. The house belonged to Mr. J. B. Northcott and was occupied by four colored families.

Mystery Surrounds Discharge of Conductors.

The Cincinnati Enquirer of yesterday contained the following: "Mystery surrounds the discharge of eight passenger conductors on the Knoxville-Cincinnati division of the Louisville and Nashville. Officials declare that no conductors have been dismissed from the service of the road, while the men and their friends declare that they have been let go. The men were let out on short notice, but why is a mystery."

"About a year ago the Louisville and Nashville put 'spotters' on trains, most of them being women. A number of charges were turned in by the 'spotters,' but no action was taken by the road. Beyond admitting that they have left the service of the L. and N. the men, who claim that they have been discharged, decline to discuss their dismissal. When confronted with these facts officials of the road strenuously denied that any conductors had left the service."

"Humors were afloat yesterday, both in Cincinnati and Covington that the Order of Railway Conductors will be called upon to take a hand in the matter, as the local committee have exhausted all means in their power to get the men reinstated."

RAILWAY DETECTIVES.

They Trace Those Who Steal or Destroy Property of the Road.

The secret service is a hard game to tackle, but, like all kinds of work, it has its easy jobs. One of them is that of special agent for a railroad. The agent is supposed to trace those who steal or destroy railroad property.

When he is notified that a trunk or other article of baggage is missing he finds out by its number from where it was sent and follows it on the books to the last station where it has been checked. Then he notifies the police in the vicinity between the station where the baggage was last checked and the station where it should have been checked. The police get busy, and probably the property is soon recovered and the thieves put in jail. The baggage is then turned over to the special agent, who notifies the railroad official that he has recovered the stolen goods.

If a freight car is robbed the special agent pursues the same tactics. He finds out where the car was last sealed and the place where the car was reported as having its seal broken. The police or constables in the country between the two points are notified, and if they fail to capture the robbers the railroad may never hear again of the stolen goods. Wherever destruction has occurred to railroad property it is usually police officers who trace and arrest those guilty.

However, the special agent must be a keen judge of human nature and with sufficient tact to make himself popular with the police officers in his territory. Usually he is an old time detective and is well enough acquainted with detectives and police throughout the country to obtain results where an amateur would fail.

THE JUDGE ERRED.

His Mistake Clearly Explained by the Old Colored Woman.

The judge of the juvenile court, leaning forward in his chair, looked searchingly from the discreet and very ragged picanniny before his desk to the ample and solicitous form of the culprit's mother. "Why do you send him to the railroad yards to pick up coal?" demanded his honor. "You know it is against the law to send your child where he will be in jeopardy of his life."

"Deed, judge, I doesn't send 'im. I nebber has sent 'im, 'deed—"

"Doesn't he bring home the coal?" interrupted the judge impatiently.

"But, judge, I whips 'im, judge, every time he brings it. I whips de little rascal till he can't set, 'deed I does."

The careful disciplinarian turned her broad, shiny countenance reprovingly upon her undisturbed offspring, but kept a conciliatory eye for the judge.

"You burn the coal he brings, do you not?" persisted the judge.

"Burns it—burns it—cose I burns it."

"Why, judge, I has to git it out ob de way."

"Why don't you send him back with it?" His honor smiled insinuatingly as he rasped out the question.

"Send 'im back, judge!" exclaimed the woman, throwing up her hands in a gesture of astonishment. "Send 'im back! W'y, judge, ain't yo' jest done been told me I didn't oughter send my chile to no sech dangesome and jeopardous place?"—Youth's Companion.

Bumps on the Head.

The lump raised by a blow on the head is due to the resistance offered by the hard skull and its close connection with the movable elastic scalp by many circumscribed bands of connective tissue. The result of a blow when the scalp is not cut is the bruising and laceration of many of the small blood vessels or capillaries. Blood or its fluid constituent, serum, is poured into the meshes of the surrounding connective tissue, which is delicate, spongy, distensible and cellular, and the well known bump or lump is quickly formed. This cannot push inward at all and naturally takes the line of least resistance. Similar bumps may be formed on the skin in exactly the same way, for the skin bone also is covered only by skin and subcutaneous connective tissue.

The First Iron Bridge.

The first iron bridge ever erected in the world and which is in constant use at the present time spans a little river in the county of Salop, on the railroad leading from Shrewsbury to Worcester, England. It was built in the year 1778 and is exactly ninety-six feet in length. The total amount of iron used in its construction was 378 tons. Stephenson, the great engineer, in writing concerning it said, "When we consider the fact that the casting of iron was at that time in its infancy, we are convinced that unblushing audacity alone could conceive and carry into execution such an undertaking."

Fertile Socotra.

Socotra, a large island in the Indian ocean, is one of the least known of the inhabited parts of the world. It is mountainous, but very fertile, and in ancient times was famed for frankincense and myrrh, aloes, dragon's blood and spices. But now Sumatra and South America produce more dragon's blood.

Death-Dealing Gun.

The United States Navy is 'planning a new 16-inch gun which will make the present world-beating 14-inch gun obsolete.

The navy has just finished one of the fourteen-inch guns, but it has been heard that some of the nations, Japan, especially, are also building the same calibre to keep pace with the situation in case the world is awakened from its dream of peace.

The plans for the new gun have been made by Admiral Twining, Chief of the Bureau of Ordnance. The length of the gun will be 67 feet. It will carry a shell weighing 2,000 pounds and will be effective at 15 miles, thus proving that the horizon cannot put a limit to modern naval science.

The fourteen-inch gun fires a shell weighing 1,400 pounds and has a range of 11 miles.

Two New Clubs in Blue Grass League.

A news dispatch from Lexington says: "President Thomas A. Sheets, of the Lexington club of the Blue Grass League, announced here this morning that the Blue Grass League will invade Covington and Newport next season, having clubs in each of those cities, thus giving the league eight clubs and putting it probably in Class C instead of Class D, where it now is."

"All clubs in the league will remain unless Winchester drops out, and if it does, Mt. Sterling wants a franchise badly."

"President Neal, of Louisville, talked the plans over with the present league officials here, and all agreed on the proposed scheme. This is the first time those cities have ever been invaded by the Bluegrass baseball organization."
